

ANDROID DEVELOPER

Job Reference: Android-Developer

ABC seeks to recruit an Android Developer within its Digital Banking Project. This Android app developer will work with our team of talented engineers to design and build the next generation of our mobile applications. Android programming works closely with other app development and technical teams.

Scope of the Job

The jobholder's role is to:

- Develop high performance and advanced Android apps.
- Collaborate with UX Team to design and implement user-driven interfaces for ease of use
- Deliver across the entire app life cycle – concept, design, build, deploy, test, release to app stores and support
- Working directly with developers and product owners to conceptualize, build, test and distribute projects
- Working along other developers to create and maintain a robust framework to support the apps
- Keep up to date on the latest industry trends in the mobile technologies
- Collaborate with cross-functional teams to define, design, and ship new features
- Work with outside data sources and APIs
- Unit-test code for robustness, including edge cases, usability, and general reliability
- Work on bug fixing and improving application performance
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.

Areas of Knowledge / Experience

- Must have at least 1 year of experience in Apple iOS application development
- Proven software development experience and Android skills development
- Proven working experience in Android app development and
- Have published at least one original Android app
- Experience with Android SDK
- Experience working with remote data via REST and JSON
- Experience with third-party libraries and APIs
- Working knowledge of the general mobile landscape, architectures, trends, and emerging technologies
- Solid understanding of the full mobile development life cycle.

Qualifications

- BS/MS degree in Computer Science, Engineering or a related subject
